

Out & About with Lori Sunflower

If you could ask an alien anything, what would it be?

Taylor Shelton
You smoke?

Tyler Zimmerman
Is there an intergalactic community and will we be part of that someday?

Ashtar Wolff Froland
What is the hum coming from the mountains? And can I come with you? Please.

Faeral
I would ask the aliens to help us. Can you help us?

Chanti Daniels
How many of us are your descendants?

Robyn Rany
What the hell took you so long to arrive? I've had my bags packed and I've been waiting for you to pick me up!

Jacquelyn Speicher
Do you know about Zion?

Jacob Rosen
When Douglas Adams wrote Hitchhiker's Guide to the Galaxy and created Deep Thought, how close was he to being right that 42 is the meaning of life, the universe, and everything?

Al Sutherland
I would ask for no more military weapons and to help people come together as one, if they can. I don't know - It's up to us. Man has got a long ways to go, and we need to get rid of all our nuclear crap. On the edge of total destruction, we've got 20 minutes to go. We're on the time clock, right?
